A VJ Technologies Company

**FOR IMMEDIATE RELEASE**

**VJ Electronix's 400ST Wins a 2009 Innovation Award**

*April 2009 — Littleton, Massachusetts. VJ Electronix, Inc. announces that it has been awarded a 2009 EMAsia Innovation Award in the category of Reflow Soldering Equipment Repair/Rework Equipment for its 400ST. The award was presented to the company during an April 22, 2009 ceremony that took place at the Shanghai Everbright International Hotel during Nepcon China 2009.*

VJ Electronix recently unveiled the newly expanded 400 Series Benchtop Rework Platform capable of addressing challenging Lead-Free Rework applications. The 400 Series is configurable with an arsenal of recently developed Rework solutions for site dressing and Through-Hole connectors.

President Don Naugler, "We have worked with several of our customers to develop a convection process for rework of through hole connectors. When combined with recent enhancements for solder removal that are also part of the solution, results are much more reliable through one or more rework cycles."

Established in 2006, EM Asia Innovation Awards program strives to recognize and celebrate excellence in the Asian electronics industry, inspiring companies to achieve the highest standards and push the industry forward.
