

FOR IMMEDIATE RELEASE

VJ Electronix to Participate at the Enova Expo in Paris, France

October 1, 2012 - VJ Electronix, Inc., a leader in Rework technologies and global provider of advanced X-ray inspection systems, announces that it will highlight its products along with Accelonix at the upcoming Enova Carrefour de l'électronique (CiEN) Exposition, scheduled to take place October 23-25, 2012 at Paris Expo, Porte de Versailles, Hall 1, Enova (Paris), France.

VJ Electronix proudly offers:

The **SRT Micra** mobile products rework system, a benchtop format specifically designed to rework the latest high density electronics found in Smartphones, Tablets, eReaders, digital recorders and other small form factor high reliability products.

The proven **Summit Series** performance rework system offers the most innovative features that have been developed for surface mount and microelectronics rework.

The **Vertex Series** semi-automatic X-ray inspection platform is a robust, production ready, proven system that offers superior uptime and unmatched performance-value.

The **400 Series** value rework platform is capable of addressing challenging lead-free rework applications. The benchtop system is configurable and offers great performance at the lowest price.

For more information, please stop by the Accelonix stand at the Enova Expo, or visit www.vjelectronix.com to learn about VJ's world-class Rework and X-ray solutions.

###
