

## FOR IMMEDIATE RELEASE

### **NBS Enhances Rework Services with VJ Electronix Summit Rework Systems**

*November 2012 - VJ Electronix, Inc., a leader in rework technologies and global provider of advanced rework and X-ray inspection systems, announces the installation of two high performance Summit 1800 Rework systems into NBS' Santa Clara manufacturing headquarters.*

“The addition of the Summit rework systems demonstrates NBS' commitment to providing the highest quality in all aspects of the services they offer,” said Mel Herrera, VJE's Regional Sales and Key Account Manager. “The new Summit systems include the latest technologies for both large and small assemblies, including non-contact site dressing and Plated (Pin) Through Hole rework.”

Michael Maslana, President & CEO of NBS

“Our continued investment in top performing equipment and partnerships with the right suppliers is important to us being a unique EMS provider,” observed Michael Maslana, President & CEO of NBS. “The ability to offer the most complex of rework, while providing extremely fast turnarounds with consistent, reliable high quality as a service differentiates NBS and contributes to our success.”

Founded in 1999 as a PCB design company, NBS delivers a wide variety of leading-edge services in PCB design, end-to-end manufacturing, test and verification. NBS caters to a diverse customer base and excels at providing designs, consultative engineering and support that abbreviates the development process. The company is ANSI/ESD S20.20 – 2007, ISO9000-2001, Lead-Free/RoHS Compliant, ISO 13485, ITAR and AS9100 certified. Visit [www.nbscorp.com](http://www.nbscorp.com).
