

FOR IMMEDIATE RELEASE

VJ Electronix Wins Its 20th Industry Award for Rework and Repair

April 2015 — VJ Electronix, Inc., the leader in rework technologies and global provider of advanced X-ray inspection systems, is pleased to announce that it was awarded a 2015 SMT China Vision Award in the category of Repair & Rework for its Summit IIe Rework System. The award was presented to the company during an April 21, 2015 ceremony at the Shanghai World Expo Exhibition & Convention Center during NEPCON China. This marks VJ Electronix's 20th industry award to-date.

The Summit IIe is VJ Electronix's new, lower cost semi-automated rework system. The Summit IIe has a unique combination of advanced automation for critical process, with easy-to-use, cost-effective manual controls. The Summit IIe features a smaller footprint, yet larger board capacity with easy to adjust board support fixtures. Enhanced SierraMate software takes the popular user-friendly operation to the next level with a simple icon-driven GUI and unmatched flexibility through easily customized operation sequences.

SMT China magazine launched the SMT China Vision Awards in 2007 to recognize both international and domestic providers of SMT equipment, materials, software and services that have made outstanding contributions to the rapid growth of China's electronics manufacturing industry by their inventions and innovations.
