

FOR IMMEDIATE RELEASE

VJ Electronix Continues to Grow in China

April 2018 — VJ Electronix, Inc., a leading global provider of advanced X-ray inspection, component counting systems and PCB rework technologies, is pleased to announce the addition of Junhao (Jerry) Zhang to its China team. As the company's newest technical support engineer, Zhang will be responsible for pre-sales / applications support, installation and post installation support of systems and customer training.

Zhang brings more than 10 years of SMT related capital experience to the VJ Electronix China operations and has an extensive background with X-ray and rework capital equipment. He joins VJ Electronix from Inestest (Suzhou) Technology Co., LTD. where he was responsible for the installation, support and training of SMT test equipment. Prior to Inestest, Zhang served as a technical support engineer at TRI Electronics (Suzhou) CO., LTD. He has a technical degree in Computer Applications.

“VJ Electronix is committed to growing our China presence and providing world-class application/technical support and training to our Chinese Customers,” said Ronald Lindell, Global Sales Manager for VJE. “VJE also is committed to developing a technical support capability for all of our Asian customers from our Suzhou Headquarters. Jerry is a great addition to our team and another step forward in our commitment to our Asian customers.”
